

QUICK-STRIPPER

High performance floor stripper

Ingredients:

QUICK-STRIPPER contains: water soluble solvents, silicate, glycol ether, alcohol, amine and solubilizer. pH-value: approx. 13-14.

Performance:

Dissolves old layers of wax and plastics extremely quickly and completely. Speedy and effortless removal of film residues and encrusted dirt is possible even without using a machine. Excellent cleaning performance together with an economical concentration for use (mixing ratio usually recommended: 1 part QUICK-STRIPPER to 4 parts water) saves time and cost when stripping. At a mixing ratio of 1 part QUICK-STRIPPER to 20 parts water also ideal for final cleaning of buildings with cleaning machines. Not continuously slippery during stripping. No unpleasant odor. No neutralization of the stripped floor is required. Low foaming.

Application notes:

Can be used for stripping all watertight floor coverings. Not suitable for linoleum, sensitive rubber coatings, wood and color-sensitive flexible coverings.

Usage:

Mix with cold water at a ratio of 1:4 (e.g. for 1 bucket = 10 liters solution for use 2 liters QUICK-STRIPPER to 8 liters water) up to 1:10. Evenly wet the floor with the solution in sections and leave to take effect for approx. 5 min. If there are only slight residues of floor wax or film, these can be mopped up immediately after this exposure time and wiped off with water.

Art.-Nr.: 04641	200 l
Art.-Nr.: 04741	10 l

For a heavier build-up of residues, briefly work the wet surface by machine (brush and pad) or scrubber after the specified exposure time. After the dissolved film and dirt residues have been mopped up, immediately wipe off twice with clean water. During stripping, do not allow the dissolved film residues to dry in.

Precautions for use:

Irritating. Contains sodium metasilicate. Irritating for eyes and skin. Keep out of the reach of children. In case of contact with the eyes, rinse immediately with plenty of water and seek medical advice. In case of contact with skin, wash immediately with plenty of water. If swallowed, seek medical advice and show this container or label.

Ecology:

This product is subject to regulations governing the environmental compatibility of washing and cleaning agents and the associated regulations on the biological degradability of the raw materials used.

Comprehensive information on the environmental characteristics of this product is available on request.

Give only completely emptied packaging to special waste disposer.

This product is designated for industrial use.
